Golden Peak

The design is inspired by the breathtaking natural wonder of Meili Snow Mountain in Yunnan, China—Golden Sunlight on the Peaks.

This magnificent spectacle occurs only twice a day: once at dawn and once at dusk. As radiant beams pierce through the sky, illuminating the snow-capped summits, they become an eternal symbol of light and hope, beauty and fortune—a timeless pilgrimage of romance and civilization.

Natural Fluids

Streams and forests, snowfields and glaciers, dunes and sun-sets, galaxies and starry skies—nature's vast wilderness, far from the city, is a sanctuary for the young spirit.
With a unique injection molding process, one side captures the poetic textures of nature, while the other forms a distinct aes-thetic pattern, reflecting individuality in writing.
