Mascot of Deli Genius -NINI

Children make a wish to the space, hoping that someone can explore the world with them. NINI from the planet Genius, in the form of a magic wand, comes to the earth to accompany the children to explore. NINI has a special skill - for every quest completed, gain intelligence +1! NINI travels all over the world, only for the children all over the world to feel the power of magic, increase wisdom, develop brain power!

INSPIRATION OF GROWING

Brand Story

Deli Genius is an education brand under the Deli Group, committed to "enabling every child to fully express their potential talents". Based on four scenes of creation, learning, initiation and play and five product categories. Deli Genius combines education with fun, helps parents explore their children's potential, creates a wonderful and infinite childhood for their children, and accompanies them to "grow up".

CREATIVE CRAFTS

Enable every child to showcase their potential talents. It is natural for children to enjoy playing, but children who can play are more likely to stand out. Deli Genius fully respects children's natural instincts and combines their growth and development needs. The product design is centered around the "Deli Genius Children's Capability Development Matrix" jointly developed by Chinese children's education experts to help children grow.

SCIENCE EDUCATION

Enable every child to showcase their potential talents. It is natural for children to enjoy playing, but children who can play are more likely to stand out. Deli Genius fully respects children's natural instincts and combines their growth and development needs. The product design is centered around the "Deli Genius Children's Capability Development Matrix" jointly developed by Chinese children's education experts to help children grow.

Enable every child to showcase their potential talents. It is natural for children to enjoy playing, but children who can play are more likely to stand out. Deli Genius fully respects children's natural instincts and combines their growth and development needs. The product design is centered around the "Deli Genius Children's Capability Development Matrix" jointly developed by Chinese children's education experts to help children grow.
